About Journal

Eurasian Journal of Physics and Functional Materials is an international journal published 4 Number per year starting from October 2017. The aim of the journal is rapid publication of original articles and reviews in the following areas: nuclear physics, radiation ecology, alternative energy (nuclear and hydrogen, photovoltaic, new energy sources, energy efficiency and energy saving, the energy sector impact on the environment), functional materials and related problems of high technologies.

The editorial board sees the task of the journal in rapid familiarization of its readers with current problems and achievements of modern physical science. Therefore, the editorial board will select for publication in the journal high quality articles containing new scientific results of great interest for the community of physicists and interdisciplinary sciences. Both Kazakhstan and foreign scientists are invited for publication in the journal. **The journal accepts articles in English.**

The journal is intended for scientists, engineers, developers, university professors, PhD-students, graduate students, undergraduates and students specializing in the field of nuclear physics, radiation ecology, alternative energy, functional materials and high technologies.

Information for the Authors

Submission. Manuscripts should be written in LATEX format and should be submitted to the Eurasian Journal of Physics and Functional Materials after registration via website (**www.ephys.kz**). With file in LaTeX format you need to attach a file in pdf format with an example of how the file should look like after the layout of the LaTeX package and all figures from article in WinRAR or Zip archive. All the files necessary for submission of the article can be downloaded from our website **www.ephys.kz** → **for authors** → **download**.

All files are archived in WinRAR format:

ephys.tex : sample LaTeX coded file for typesetting manuscripts

ephys.pdf : sample typeset pages

ephys.jpg : sample of figure

For help with the use of LaTeX, please e-mail to *azhibekov@ephys.kz*

When paper is accepted for review, the authors can monitor the status of manuscript in personal account on website **www.ephys.kz**.

Copyright. When the paper is accepted, the copyright is automatically transferred to the Eurasian journal of physics and functional materials.

On the Web

All the published articles are indexed and are available at **www.ephys.kz** for download for free. The archive of the website contains all papers published in Eurasian Journal of Physics and Functional Materials, where also you can find more information.
